HYDRATION - Part of playing at one's best means staying hydrated. When an athlete fails to replace the fluids and electrolytes lost through sweat, they can become dehydrated. Gatorade re-hydrates better than water by putting the essential electrolytes back into an athlete's body and delivers carbohydrates that energize muscles and the brain. Participants should be instructed about the importance of adequate fluid consumption. Participants may be training outdoors in a hot and humid climate where dehydration can occur quickly. Gatorade is one of IMG Academy's Premier sponsors, and we have integrated the Gatorade Product Portfolio into our athletes' workout sessions. We want to take each participant's game to the next level, and Gatorade is committed to helping participants get there. Gatorade will be providing products strategically placed around campus to fuel Athletes on their athletic journey.

PARTICIPANTS WILL FIND:

Gatorade Thirst Quencher: Proven hydration to replace what is lost through sweat. Available in coolers at your sport AND at both Gatorade Fuel Bars.

Gatorade Recover: Protein to help rebuild muscle. Available in a Gatorade Recover Shake or Recover Bar for the end of the day either in the Gatorade Fuel Bars or at sport.
